/Emmanuel L. Moise/ Supervisory Patent Examiner, Art Unit 2137								

Continuation of 11, does NOT place the application in condition for allowance because: In response to the applicant's argument with respect to the rejection of claims 1-17 under 3 USC 101, the examiner would like to point out that clams are to be given their broadest interpretation in light of the specification. Since the "computer readable storage medium" is not defined in the specification, the medium encompasses signals or other forms of propagation and transmission media failing to be statutory under 35 UG1, Applicant is invited to review MPEP 2106 and the "Interim Guidelines for Examination of Patent Applications for Patent Subject Matter Eligibility" Annex IV, Oct. 26, 2005, at http://www.uspho.org/workpot/fices/pad/app/oplay/prognotice/guidelines101 2005/1026.pdf.

With respect to the applicant's arguemnt to the rejection of claims 1-17 under 35 USC 103, the applicant argued that "Christodorescu Reference is not Prior Art, the date cited by the Examiner and appearing on the face of the Christodorescu 1 and adat that the reference was available to the public." The printed date on the Christodorescu 12, 2002 qualifies it as a prior art. If the date on the publication is not the date that was made available to the public applicant needs to file an Affaidavit or Declaration under 37 Cc.F.R.
